

# Happy Holidays & Happy New Year from all of us at the WISC Lab!

December and January are always busy months at the Waisman Center, with so many families coming in for visits while their children and teenagers are on holiday breaks. As always, thank you for your amazing contributions to this important work. We hope your holiday season is filled with special times spent with those most special to you. Stay safe as you travel and eat an extra piece of pie!

Fondly,

Dr. Katie Hustad, Phoebe Natzke, Ashley Sakash, Michael Molinaro, Jing Shen, & the WISC Lab Team

Wish us happy holidays on Facebook! The WISC Lab has a new Facebook presence, and we would love to connect with you. While our lab website continues to host most of our scientific content, the WISC Lab Facebook page offers weekly insights into life at the lab, student spotlights, features on some of our participants and opportunities for participation in new studies.
